

MONI AVGOU

MONI AVGOU - EGG ABBEY

STAVROPODI

“Egg” Abbey of St.Demetrios

Only 30 minutes from Vivari is epochal thousand year old monastery built within the solid rocks of the mountain slope. It stands there isolated, far from civilisation and peaceful. This Abbey was always beloved by Greeks, but it became famous during the Greek War of Independence. Monks from this holy place could not see the suffering of ordinary people under the Ottomans occupants and joined the armed forces. Monastery is accessible by car, but we recommend 4x4, motorcycle or mountain bikes.
